Improve Your Understanding of the Bible!

The quality of software and commentaries available at reasonable prices opens up the possibilities of deeper understanding of the Bible. However, many of the codes and languages used in these resources are confusing (perhaps they are all Greek to you! – and Hebrew...)

Whitley College is pleased to offer an Introduction to Biblical Languages course in Bendigo, which will empower you to access the value and insights these commentaries and other electronic resources offer. In this course, you will learn the basics of the Greek and Hebrew languages and how to use the Accordance Bible Software program to deepen your own study of the Bible.

Whether it is for personal devotion, to deepen your own study of the Bible, to aid in the writing of sermons or bible studies, or to further your study in theology, being able to examine the Bible from the Original Languages is a valuable tool. Come and join with a community of people who share the goal of learning these skills. No translation of text is required – the focus is on empowering you to understand the insights offered by commentaries and software from the original languages of the Bible.

We live in a world where the Hebrew and Greek languages that the Bible was first written in has never been more available. Powerful Software packages can give us all access to these languages like never before. In this course, you will learn some basics about each language so that these tools can be more helpful for your own growth in Christ.

When: Thursdays from 6:30pm – 9:30pm
Dates: 28th July – 27th Oct
Venue: Bendigo Baptist Church
Cost: $400 to “Audit” this course (this price includes a copy of the Accordance Bible Software “Original Languages” Collection used in the course and yours to keep.) (Normal purchase price of this software is $400)

This course can also be taken as part of a recognised tertiary award, if you wish to pursue a formal study program. Whitley College can provide information about Course Fees and the availability of Fee-Help. Students studying for Accreditation will need to purchase a copy of the Accordance Bible Software “Original Languages” Package separate to their course fees.

PLEASE NOTE: All students will be required to have a copy of the Accordance Bible Software “Original Languages” Collection on a computer (Mac or Windows) in class. Purchase of this will be arranged through Whitley College.
